Century 21 Accounting Online Working Papers

South-Western, ©2009

Aplia's **Century 21 Accounting Online Working Papers** provide students with online, automatically graded journals, ledgers, work sheets, financial statements, and other forms used to complete textbook problems. The **Online Working Papers** are identical to the printed working papers but completed online and automatically graded. As students complete the assignments, teachers receive a complete assessment of their work and comprehension levels, while their grades are instantly entered into an online Aplia grade book. For a demo, visit www.aplia.com/workingpapers.

iMPACT Interactive Text/CD-ROMs

South-Western, ©2008-2010

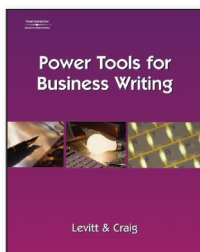

Bring all your students into the front row of the classroom with a new **iMPACT Interactive Text!** An interactive text is a fully functioning textbook delivered via CD-ROM, offering a fresh new way of learning. Appealing to all types of learning styles (audible, visual, verbal learners), the interactive text offers key learning elements such as hypertext linking to subsections of the text, key term definitions, forms for completing end-of-chapter assessment activities and animations of key concepts. The forms can be e-mailed directly to the instructor using an e-mail client to submit answer fields directly to instructors. As well, animated learning objects can be played over and over again to help students grasp difficult concepts.

Instructors can collect student responses and spend more time focused on teaching more difficult concepts. Get the benefit of having a regular printed textbook along with the added benefit of interactivity. You and your students will be more motivated and engaged in the learning process. Try it out today!

Business Communication

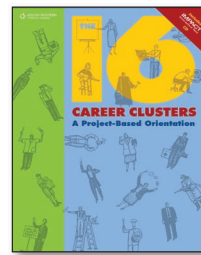

Power Tools for Business Writing

South-Western, ©2006

A results-oriented program that boosts writing skills by 35 percent in just 12 to 15 hours. Focus is on the practical, beginning with “quick starting tools,” that include overcoming writer’s block, using the clustering technique to generate ideas, maintaining momentum, and hammering out an efficient first draft. The essential basics of grammar and punctuation are covered briefly. In addition, active and passive voice, dummy subjects, and weak verbs are presented. Then techniques are presented for refining the first draft with parallel structure, correct placement of modifiers, and clear pronoun references. Next persuasive writing, effective sentence and paragraph structure, and methods of organizing and delivering information to fit the audience are covered. Guidelines for writing and formatting result-oriented e-mail, memos, and letters are provided along with advice on proofreading. Included are self-testing exercises and review sheets.

16 Career Clusters: A Project-Based Orientation

South-Western, ©2009

Contains a chapter of hands-on activities for each of the U.S. Department of Education’s 16 career clusters plus an iMPACT interactive text CD. Now students can explore job and career options through activities that help them discover what skills and traits are needed to be successful in each career field. The iMPACT Interactive text CD is a fully functioning version of the textbook delivered via CD-ROM, offering a fresh new way of learning. Most of the activities can be completed on the computer using the built-in forms provided on the CD. Students can print their completed activity forms or e-mail them directly to the instructor. Interactive elements include hypertext links from the Table of Contents to subsections of the text, live Internet links, and animations to help students complete the activities.

KeyChamp 2.0

South-Western, ©2003

KeyChamp 2.0 is the market-leading program for building keyboarding speed in the shortest possible time! This versatile speed-building program can be used in any keyboarding class after the alphabetic keys have been learned. Focusing on speed rather than errors, **KeyChamp 2.0** measures and analyzes digraphs (two-keystroke combinations). And to help correct these technique errors, a diagnostic tool built right into the software provides progress reports and areas of improvement.

The Lost Keys: A Keyboarding Skill-Building Game

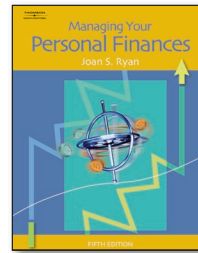

South-Western, ©2007

The Lost Keys: A Keyboarding Skill-Building Game is designed for students in grades 6–12 who have already learned touch-typing. This game focuses on improving keying speed and accuracy. Students are recruited as agents of a secret organization called The Lost Keys (TLK) and sent to locations all around the globe in search of lost objects. Students must key coded messages to receive mission instructions, assemble vehicles, and navigate the cities of the world. Building keying speed and recovering lost items add to students' scores. For more information, visit thomsonedu.com/school/lostkeys.

Media Arts & Design

Behind the Design: Designers on Designing

Arnold & Eddy, ©2007

This cutting edge DVD set provides valuable insight into the minds and work of leading young designers. Each DVD includes two key segments – documentary-style interviews following successful design projects from concept through execution and visually-rich tutorials allowing user the opportunity to put the same tools and concepts to work, creating exemplary pieces for their design portfolio.

KEY FEATURES

- Designers “reverse-engineer” their designs allowing the user to evaluate and understand all stages of development
- Artist discussions expose all aspects of their exceptional work — from their design choices and key goals to the needs of the client and challenges encountered along the way
- A user-controlled interface on the DVD allows readers to direct their own interactive learning experience
- e.resource helps instructors bring this ground-breaking teaching tool into the classroom with innovative discussion ideas, new project assignments and teaching hints

Introduction to Agriscience DVD Series

Delmar, ©2006

This series provides up-to-date content in order to enhance teaching of the many subject areas embraced by agriculture, technology, food, and natural resources—a teaching resource developed exclusively to meet the needs of Agriscience programs. The four (4) general topic areas of the DVD series include: Animal Science, Plant Science, Forestry and Natural Resources, and Woodwork, Metal Work and Tools.

KEY FEATURES

- Contains over four hours of footage on three DVDs
- Career profile footage shown at the completion of each DVD to illustrate a “day in the life” of workers in the agricultural industry
- Includes handbook correlating DVD series to nine core Delmar textbooks
- Supplemental questions are included to drive classroom discussion

Agriscience Classroom Interactivity CD-ROM

Delmar, ©2007

The **Classroom Interactivity CD-ROM** will allow the instructor the ability to create a dynamic learning environment. The **Classroom Interactivity CD-ROM** will have 4 different software applications each resembling a popular game show format. These software applications reinforce material presented in each chapter. It engages the students in active participation, which enhances their learning experience. This is a great way to encourage active learning and to reinforce learning outside of the classroom.

Agriscience Classroom Interactivity CD-ROM for:

Introduction to Veterinary Science, 2E	9781428312319

Agriscience Career Exploration CD-ROM

Delmar, ©2007

You can help your students with **Delmar's Agriscience Career Exploration CD-ROM**, featuring over 150 popular careers in the Agriculture industry. This product will enable users to assess basic knowledge, explore career paths, and have access to starting salaries, duties & responsibilities, and job forecasts. It can be used in any secondary education program, and guidance or career counseling program at any level from high school to continuing education programs. This CD-ROM will not only educate the student on many career opportunities, it will serve as a valuable tool to the educators, counselors, and parents.

KEY FEATURES

- Program covers a wide range of careers from agribusiness to horticulture, from production to research
- Identifies potential career ladders within the field
- Personal profiles complete with a photograph and “Questions and Answers” sections about the designated job
- Custom Comparison tables allow students the option of comparing multiple careers based on education requirements, salary information, projected outlook, and other key features

Earth Science

GIS Investigations: Earth Science

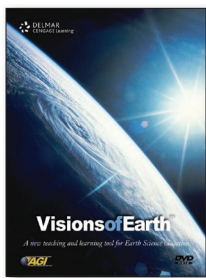

Hall, Huth, Weeks, Walker & Kendall
©2008

In **GIS Investigations: Earth Science**, students use powerful, state-of-the-art GIS software and data backed by current scientific research to investigate a wide variety of topics in the Earth Sciences. Scientists use GIS technology as a tool for organizing, visualizing, and analyzing scientific data. This real-world data provides new insights into the traditional concepts taught in the Earth Science classroom, and motivates students to "discover" key scientific concepts. The investigations are written by scientists and educators in an engaging style, and have been extensively tested, and are in use in classrooms across the country. These investigations do not require teachers or students to have previous experience with GIS software.

Earth Science

Visions of Earth DVD Series

The American Geological Institute
©2009

Developed by The American Geological Institute, the voice of professional geoscientists, **Visions of Earth** is a DVD-based series derived from National Science Education Standards. It was designed to fit with current and future Earth science curricula in schools across the country. Drawing upon the American Geological Institute's huge geoscientific archive of HD television footage, this series provides almost two hours of Hollywood style animations, and stunning computer generated images. It will transport students to places within the Earth system that are impossible to visit in any other way, going back in time, plunging into the deep ocean and inside Earth's crust, traveling down through volcanoes, and much, much, more.

KEY FEATURES

- Created by American Geological Institute (AGI)
- Standalone product or a Supplement
- Two soundtracks: student version/instructor version
- Systems aligned with Science of Earth Systems;
- Includes 4 DVDs in one package: Disc 1: Exosphere & Geosphere, Disc 2: Hydrosphere, Disc 3: Atmosphere, Disc 4: Biosphere

Emergency Medical Services / Fire Science

Techniques in Airway Management DVD Series

University Medical Services, ©2008

A unique DVD program, **Techniques in Airway Management** offers step-by-step processes for both basic and advanced airway management. Comprising of three DVDs based on basic and advanced life support techniques, this scenario-based training offers learners a realistic, inside look at airway emergencies and critical procedures for effective response. Providing interviews with actual experts in the field, each DVD introduces learners to basic skills then progresses on to demonstrate more advanced techniques for patient rescue and intubation. A look at current technology and techniques provides learners with the latest information from the field. This comprehensive coverage ensures that the DVD series is effective as either a primary teaching tool or as a supplement to classroom instruction.

Technology

Visualization in Technology Education (VisTE) CD-ROMs

Delmar, ©2007

Promote positive attitudes toward technology! This CD-ROM package from Delmar enables students in grades 8-12 to create visualizations using basic design skills, graphing, image processing, animation, and simulation. Four units on a CD support and integrate the Standards for Technological Literacy (STL) into the classroom via the study of visualization, science, technology.

KEY FEATURES

- Supports the new STL developed by the International Technology Education Association
- Can be used with existing equipment already in the classroom, and is suitable for both modular and traditional classes
- Encourages users to develop good problem-solving and critical thinking skills as they learn to create and deliver multimedia presentations
