

Groundbreaking Online Training with Realistic Scenarios for ALL Automotive Systems

Delmar Automotive Training Online: Diagnostic Scenarios (DATO) creates a rich-media learning experience and challenges learners to master diagnostic and repair practices in **62 realistic scenarios that span all systems areas**. Combining sound instructional design with top-quality photographs and videos, as well as necessary manufacturer information, learners develop critical thinking skills and apply them to real-world customer concerns. Each scenario addresses a simulated problem on a specific vehicle and teaches students to use a structured 8-step diagnostic process that starts with a customer-stated concern on a repair order and ends with repair verification. In keeping with NATEF requirements, DATO's Learning Management System capabilities track, record and report each learner's progress.

Diagnostic Scenarios are available for these areas:

All 8 Areas/62 Scenarios

ISBN-13: 978-1-133-60164-7

Engine Performance Printed Access Card (10 Scenarios)

ISBN-13: 978-1-111-03477-1 (Sampler ISBN-13: 978-1-111-54560-4)

Electricity and Electronics Printed Access Card (10 Scenarios)

ISBN-13: 978-1-111-03474-0 (Sampler ISBN-13: 978-1-111-54559-8)

Engine Repair Printed Access Card (8 Scenarios)

ISBN-13: 978-1-111-03486-3 (Sampler ISBN-13: 978-1-111-54563-5)

Brake Systems Printed Access Card (8 Scenarios)

ISBN-13: 978-1-111-03480-1 (Sampler ISBN-13: 978-1-111-54561-1)

Suspension and Steering Printed Access Card (6 Scenarios)

ISBN-13: 978-1-111-03483-2 (Sampler ISBN-13: 978-1-111-54562-8)

Heating and A/C Printed Access Card (6 Scenarios)

ISBN-13: 978-1-111-03489-4 (Sampler ISBN-13: 978-1-111-54564-2)

Automatic Transmissions Printed Access Card (8 Scenarios)

ISBN-13: 978-1-111-03492-4 (Sampler ISBN-13: 978-1-111-54565-9)

Manual Transmissions Printed Access Card (6 Scenarios)

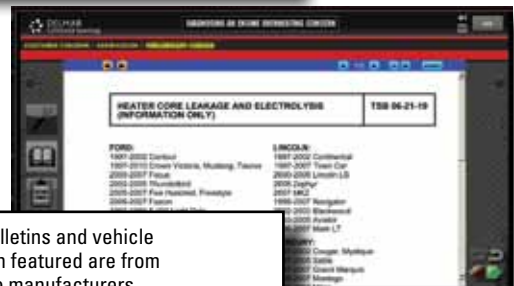

ISBN-13: 978-1-111-03495-5 (Sampler ISBN-13: 978-1-111-54566-6)

For additional information visit us at

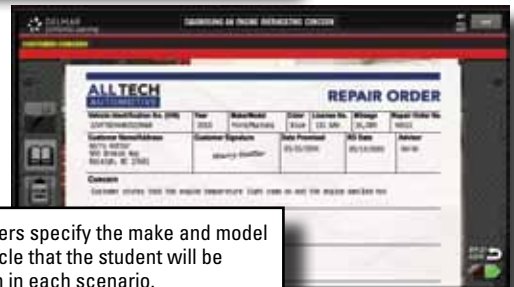

www.cengage.com/community/autoed/dato

Meet Norm, the shop foreman. Norm functions as a coach throughout the scenarios, giving the student the same type of advice an instructor would give a student in the shop.

Service bulletins and vehicle information featured are from automotive manufacturers.

Repair orders specify the make and model of the vehicle that the student will be working on in each scenario.

Each scenario is loaded with rich media, including photographs of the featured car make and model, real equipment, videos and Flash animations that simulate a real shop environment and make learning fun.

Jack Erjavec Innovative Instructor Scholarship

Author, Jack Erjavec and Executive Editor Dave Boelio, with 2011 Scholarship Recipient Randy Nussler from Midlands Technical College.

THE PURPOSE

First awarded in June 2007, the annual Jack Erjavec Innovative Instructor Scholarship awards the instructor who demonstrates the most innovative and effective use of technology in the classroom. Sponsored by Delmar, Cengage Learning and administered by NACAT, the \$2500 annual award provides funding to allow one instructor each year to attend the summer NACAT conference and other training events.

NOMINATIONS and ELIGIBILITY

A nomination form is available on www.cengage.com/community/autoed and on nacat.org. Nominations can be made by department chairs, fellow instructors, or administrators. The scholarship is open to all automotive-related technology instructors who have exhibited unique and innovative use of technology to enrich their students' experience, and who work at public and private secondary and post-secondary schools and training centers in North America.

IMPORTANT DATES

The scholarship is to be primarily utilized for travel to and attendance at the NACAT annual conference. The award is open to NACAT members as well as non-members, and the 2012 nomination deadline is April 1, 2012. A winner will be selected by May 15, 2012 and announced at the annual summer NACAT conference.

ABOUT JACK ERJAVEC

The scholarship recognizes the contributions of Jack Erjavec, former board member and current officer of NACAT, and recipient of the 2006 NACAT MVP Award. Jack Erjavec is the Author of *Automotive Technology: A Systems Approach, 5th Edition*, the *Today's Technician Series* Editor as well as the lead author, series editor, or contributor to dozens of other Delmar, Cengage Learning books. Jack Erjavec was a charter member of STS/SAE, has served as board member of the Automotive Training Managers Council, and has been awarded numerous honors throughout his career.

Jack Erjavec is a valuable contributor to automotive education. Delmar, Cengage Learning is proud to honor his commitment to the field by offering instructors the opportunity to further develop their teaching skills and technical knowledge.

Engaging. Trackable. Affordable.

Interested in a simple way to complement your text and course content with study and practice materials?

Cengage Learning's Automotive CourseMate brings course concepts to life with interactive learning, study, and exam preparation tools that support the printed textbook. Watch student comprehension soar as your class works with the printed textbook and the textbook-specific website. Automotive CourseMate goes beyond the book to deliver what you need!

Features of Automotive CourseMate include:

- An interactive eBook
- Interactive teaching and learning tools including: quizzes, flashcards, and more!
- Engagement Tracker, a first-of-its-kind tool that monitors student engagement in the course.

Visit www.cengage.com/coursemate for more information and to view a CourseMate demo!
